Subject: Fwd: Sulfur Springs Valley Electric Cooperative Rate Increase Request

RECEIVED
AZ CORP COMMISSION
DOCKET CONTROL
2016 MAY 19 9:49

I have become aware of a campaign by the above named utility to solicit public support for a rate increase on their cooperative members that have solar voltaic systems on their homes. This proposed rate increase is not fair. Solar electric systems provide clean energy that should be embraced by the utility not penalized. Our excess energy is sold back to the cooperative at a wholesale price, then is resold to other cooperative members at their retail rate. I'm sure their costs associated with my use of their infra-structure is more than covered by the sale of my excess electricity.

I urge you to deny this rate increase which is aimed at those of us that have taken steps to reduce our nation's reliance upon fossil fuels and to protect our environment.

Thank you,

Gregory Berhow
